

Vacation Design Fee Agreement

We at Joyful Journeys are excited to get started on plans for your amazing travel experience. We pride ourselves in designing vacations that are exceptional, memorable, and inspiring! Our professionally designed itineraries are thoroughly researched and founded in years of experience.

From the moment we accept a new project, we commit time and effort to the success of your travels! The design process includes research of destinations, accommodations, transportation, tours and excursions, special needs and requests, and travel trends. Suppliers will be contacted, and one or more itineraries will be drafted for your consideration.

To begin the planning process, we collect a Vacation Design Fee of \$_____. This fee is **non-refundable**.

A reasonable number of modifications will be permitted within fourteen (14) days of the initial proposal. A complete change of destination or mode of travel (for example, deciding against Europe and requesting information on a Caribbean all-inclusive resort vacation) will be considered a new request and will require an additional Vacation Design Fee.

Pricing within proposals is based on current availability and is subject to change until booked.

Should you accept one of the customized proposals, your Vacation Designer will confirm travel components with trusted suppliers to ensure you have the most positive vacation experience possible.

The Vacation Design fee is earned by your Vacation Designer as payment for services rendered whether or not you choose to book your vacation with Joyful Journeys.

The Vacation Design fee is not a deposit for future travel.

Payment may be made by credit/debit card or by check made payable to Joyful Journeys.

I agree to the above terms and conditions. I wish to engage _____ of Joyful Journeys to research potential travel options. I understand that the Vacation Design Fee is for professional services and is not a deposit for future travel. I understand that the Vacation Design Fee is **non-refundable**.
